

Campus Hazing Transparency Report

Compliance Record

Covered Period	July 1, 2025 – September 23, 2026
Report Status	No qualifying hazing violations to disclose
Responsible Office	Institutional Compliance / Clery Compliance

Purpose

Crestmont University maintains this Campus Hazing Transparency Report compliance record in accordance with the Stop Campus Hazing Act and applicable Clery Act requirements. The purpose of the Campus Hazing Transparency Report is to disclose qualifying findings of responsibility for hazing violations involving student organizations established or recognized by the University.

Current Reporting Status

No qualifying findings to report. For the period beginning July 1, 2025 through October 1st, 2026, Crestmont University has not identified any findings of responsibility for hazing violations involving a student organization established or recognized by the University. Accordingly, there are no qualifying hazing violations to disclose in a Campus Hazing Transparency Report as of the date of this record.

Reporting Period and Update Approach

The University began maintaining the applicable hazing transparency reporting record on July 1, 2025. When a qualifying finding exists, the report is updated in accordance with applicable federal timing requirements. Where no qualifying finding has occurred, the University maintains internal documentation of its review and reporting status.

What Constitutes a Qualifying Disclosure

A qualifying disclosure for this report is based on a finding of responsibility for a hazing violation involving a student organization established or recognized by Crestmont University. A report, allegation, or investigation by itself is not presented in this transparency report as a finding of responsibility.

Internal Compliance Review

Institutional Compliance will periodically review University records to determine whether any qualifying hazing findings have occurred. This internal review supports documentation of compliance even during periods in which there are no findings requiring publication.

Review Date	Qualifying Findings Identified	Compliance Action
October 1st, 2026	None	No public update required based on current records; continue monitoring.

Ongoing Responsibilities

Crestmont University will continue to document reports of suspected hazing, apply its established response and disciplinary procedures, maintain records of institutional findings, and update the Campus Hazing Transparency Report when required. The University will also continue its hazing prevention and awareness activities for the campus community.

Certification of Current Record

This document reflects Crestmont University's hazing transparency reporting status based on University records available as of September 23, 2026. It should be revised if a qualifying finding of responsibility is made or if applicable federal requirements change.
